## Large water lifting systems, hydraulic turbines and photovoltaic systems

MISA is a dynamic and reliable organization specialized to satisfy the requirements of the most different productive sectors, with interventions ever guaranteed by a quality certified according to UNI EN ISO 9001; UNI EN ISO 14001 and OHSAS 18001. MISA is in a position to guarantee solutions to complete cycle, from design, to construction and installation, provided upon specific Customer's request and with an appreciated supply on turn-key plant. MISA has also the SOA certificate for participation in public procurement tenders. This is our integral "Made in Italy". Each our product is completely original from start to finish.

### Our operation fields concern the planning and the manufacturing with supply on turn-key plants of:

- Electro-hydraulic plants for reclamation, aqueducts, irrigation, industrial sewerage systems
- Fixed or variable-pitch propeller water- scooping pumps
- Horizontal and vertical centrifugal pumps (radial flow)
- Mixed flow pumps
- Mixed flow centrifugal pumps
- Channel-impeller centrifugal pumps
- Hydraulic turbines
- Anti-water hammer devices.
- Electrical control equipment (transforming stations, medium voltage cabins, power center switchboards, frequency converters for speed, supervisory and control systems)
- Electric generating sets
- Photovoltaic systems
- Other particular planning and supplying
- After-sales service
